

Step-by-step Guide to make Account on CHSI website and get QR Code for Picture

Hello everyone, this is a step-by-step guide to make account on CHSI website and get QR Code for picture.

This guide has been prepared in good faith, to help fellow students get registered on CHSI website.

Errors and omissions are accepted.

Important Note: Do all steps on laptop / desktop, instead of your cellphone!

The steps include following:

1 Go to <https://chsi.com.cn/> website. The interface will be like follows:

On the upper right corner, you'll see two options; one will be for logging in, other will be for signing up.

Go to the sign-up option, if you are registering for the first time and your account does not exist previously.

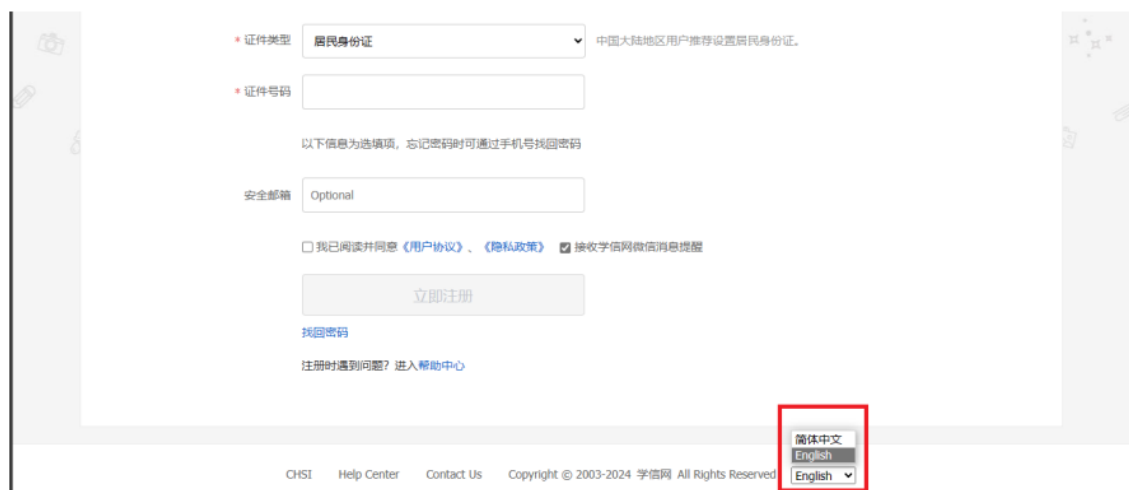

Important Note: DO NOT Click on English to change the language.

(Alternatively, you may directly visit <https://account.chsi.com.cn/account/preregister.action> to make account on CHSI)

2 When you'll go to the account registration link, following window will appear:

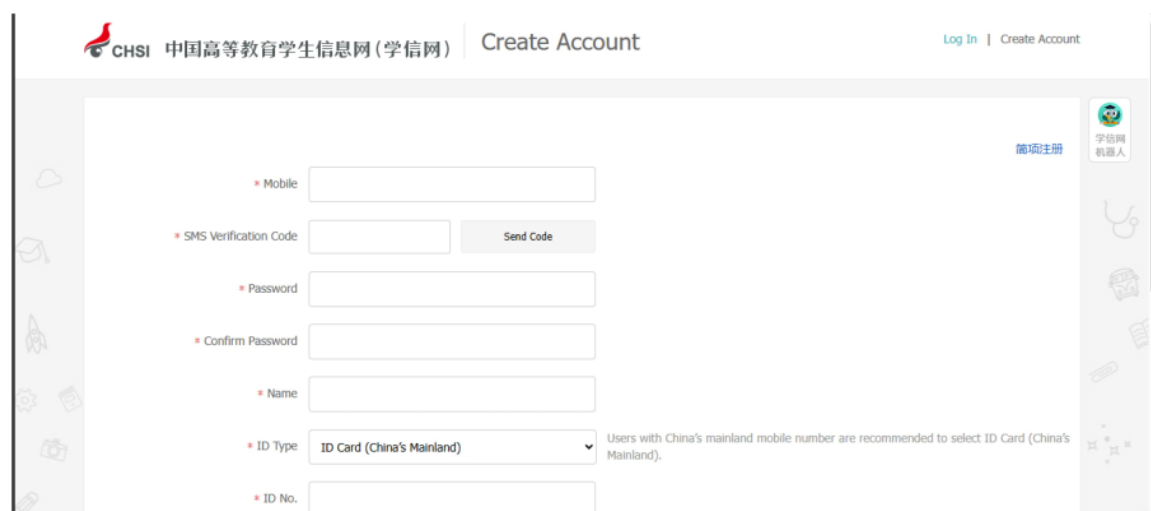

The screenshot shows the CHSI account registration form. The form is titled '实名注册' (Real-name Registration). It contains several input fields: '手机号' (Mobile Number), '短信验证码' (SMS Verification Code), '密码' (Password), '密码确认' (Password Confirmation), '姓名' (Name), '证件类型' (Document Type), and '证件号码' (Document Number). There is also a '获取验证码' (Get Verification Code) button. The form is set to '居民身份证' (Chinese Resident ID Card) as the document type. The background is light gray with a sidebar on the left containing various icons.

3 As you can see that this page is in Chinese language; no problem. Scroll down to the bottom of this page and select “English”:

(If at first, it does not affect the language, again no issues. First click on Chinese language again, and then English)

4 When the language will get changed, the interface will look like follows:

5 **Before entering your details here, first go to <https://info.tsinghua.edu.cn/> by entering your credentials, select “English” version, and then see what is appearing under your “Student Status” and “Edit Personal Details”?**

Here, I would sincerely suggest to check and click on “Edit Personal Details”.

You can update your email address and contact details here.

Instead of Gmail / Google, I would sincerely suggest to go for Microsoft services like Outlook or Hotmail, so that you do not face any issues regarding getting verification email from CHSI.

If your Hotmail / Outlook email does not exist, you may create a new one and update / edit here.

Similarly, update your cellphone number.

For China Mainland, the cellphone will contain 11 digits, without 0086, +86, +, +1, etc.

Enter your working cellphone number here and save (I mean your China Mainland number, where you can be able to receive 6 digits verification code)

The landline number will also contain 11 digits, first 03 digits for city code (like 010 for Beijing) and then 8 digits for your landline number.

If landline number does not exist, you may either enter (with permission) your department's office number or your cellphone number (I entered my cellphone number here).

Remember to not leave any space between the numbers / 11 digits.

To sum up, your cellphone number should be like 12345678901, and landline number may be like 01012345678

6 When personal details have been edited / saved, click on "Student Status". Following details will appear:

Enrollment status information	
Student ID	
Name	
English name	
Student category	
Gender	
Birthday	
Ethnicity	
Political status	
ID no.	
Degree already obtained	
Code of graduation university	
Code of major for bachelor's degree	
Graduation university for master's degree	
Major for master's degree	
Country	
ID type	
Marital status	
Graduation university for bachelor's degree	
Major for bachelor's degree	
Graduation date for bachelor's degree	
Code of graduation university for master's degree	
Code of major for master's degree	
Graduation date for bachelor's degree	
Code of graduation university for master's degree	
Code of major for master's degree	
Graduation date for master's degree	
Department/school/college	
Code of major	
Supervisor's name	
Native province	
Exam registration no.	
Master student ID	
E-mail	
Home phone	
Home province	
Province of commissioning units	
Campus	
Major	
Whether international student?	
Supervisor's work ID	
Place of Original Ancestry	
Undergraduate student ID	
Admission date	
Cell phone	
Commissioning units	
Expected graduation date	

7 **The very important information is your English name and ID No. (Highlighted in RED)**

If you need to update your English name, first have it updated in THU Record, and then go for registration on CHSI, so as to avoid any issues in future.

Similarly, if your passport is expired or you have made a new passport, first have it updated with THU, and then go for CHSI registration.

Updating record with THU can be easy, but with CHSI, it can be difficult.

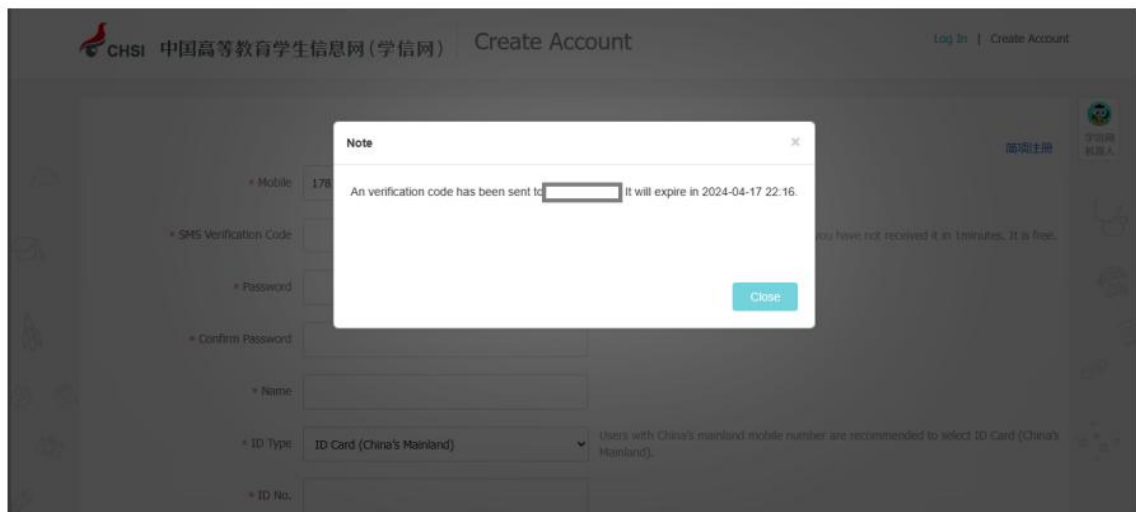

8 Now assuming that all the information with THU Record is up-to-date, you'll now go to enter your details on CHSI website as follows:

9 Enter your cellphone number in the first box, when you'll click on send code, following type of window will appear:

Don't worry; we are THU students 😊 Either you can type as such, or solve as per BEDMAS (Brackets first, then exponent, then division, then multiplication, then addition and lastly, subtraction).

Enter the value, and click on "Yes".

10 If successful, following window will appear:

Click on the “Close” Button and Enter the SMS Verification Code which you receive.

11 Here, in following picture, you can see that mobile number has been entered followed by verification code, password has been set and confirmed (meeting the criteria):

Ensure that password is set to “Very Strong”

In Name, write the name exactly appearing with THU!

If its “ASDFG BGH” in THU record, write exactly as “ASDFG BGH”. If its “ASDbf aasdBf”, write exactly as “ASDbf aasdBf” (without quotes).

Similarly, choose ID Type very carefully!

For International students, it’ll most probably be passport, so choose accordingly.

For “ID No.” enter exactly as per record available with THU!

If its AB1234567, write AB1234567. If its A123456, write exactly as A123456

Beware of Capital / Small letters in your passport and name! and exactly write as per THU Record! If your THU Record and details on CHSI will vary, even if there is conflict b/w Capital letters and small letters (e.g. in THU, your name is DAVID, but with CHSI, you enter David), you’ll land in trouble!

12 After you've filled in all the relevant information, agree with the terms and conditions, and click on Create Account as follows:

The screenshot shows the 'Create Account' form on the CHSI website. It includes fields for 'ID Type' (set to 'Overseas Chinese ID Card / Passport (if ID Card)'), 'ID No.', and 'Email'. A note states: 'The following information is used for retrieving password. It is optional. If you leave it empty, you can also use the mobile number to retrieve the password.' Below the fields are checkboxes for 'I have read User Agreement and Privacy Policy and agree to abide by them.' and '接收学信网微信消息提醒'. A teal 'Create Account' button is present, along with links for 'Recover Password' and 'Unable to create an account? Refer to Help Center'. The footer contains 'CHSI', 'Help Center', 'Contact Us', 'Copyright © 2003-2024 学信网 All Rights Reserved', and a language dropdown set to 'English'.

13 When you'll create account, following window will appear:

The screenshot shows the success page after account creation. It features a green smiley face icon and the text 'Your account has been created!'. A teal 'Log In' button is visible. Below, a message states: 'A verification email has been sent to the email address [redacted] you provided, and you can recover your password via your email address once it is verified. Verify >'. A section titled 'Have not received verification email?' provides instructions to check spam or click 'Resend Verification Email'. Other links include 'How to put CHSI emails onto whitelist?' and 'Modify Email Address'. The top header shows the CHSI logo, '中国高等教育学生信息网 (学信网)', and 'Create Account' link, with 'Log In | Create Account' on the right.

Go to your email, and check for email received from CHSI.

If not in your Inbox, you might see it in Spam.

Mark it as “No Spam”, follow the instructions and verify your email.

14 Now assuming that your account has been successfully created and you've verified your email; after logging in to CHSI website, your account will appear as follows:

The screenshot shows the CHSI Account Management interface. On the left is a sidebar with navigation links: Profile, Push Messages, Unbind Account, Login File, and a list of services including '学籍档案' (Academic Record), '高等教育信息' (Higher Education Information), '在线验证报告' (Online Verification Report), '出国教育背景服务' (Overseas Education Background Service), '出国报告发送' (Overseas Report Sending), '图像校对' (Image Proofreading), '学校满意度' (School Satisfaction), '个人测评' (Personal Assessment), and '研究生招生' (Postgraduate Admission). The main content area is titled 'Account Management' and features a 'Profile' section with a progress bar at 87.5%. Below the progress bar, a message states: 'You are suggested to complete your account information as to use other systems of CHSI.' The profile fields are as follows:

Field	Value	Action
Mobile (Bound)	[Empty Input Box]	Modify
Name	[Empty Input Box]	Modify
Country/Region	China's Mainland	Modify
ID Type/ID No.	Overseas Chinese ID Card / Passport (If ID Card is not available) [Empty Input Box]	Modify
Password	*****	Modify
Email (Bound)	[Empty Input Box]	Modify

Here in the 3rd and 4th options, you have the option to change your country.

If your country appears here, choose it, otherwise, there will be option for other, if your country is not listed.

15 Now, last option here will be to set security questions for resetting password.

Follow all the instructions and set your security questions and answers.

Its simple and easy, but don't forget the answers, otherwise, you might have hard time in getting your account back, if in case you forget your password or loose access to your account.

(I am assuming that the answers to 3 security questions are case sensitive, so remember carefully):

This screenshot shows the 'Security Question' section of the CHSI Account Management page. The progress bar is now at 100%. The 'Security Question' field is set to 'Security Questions have been set. You can use them to recover your password.' Below this, a red-bordered box contains a confirmation message: 'Security Questions have been set. Please remember them.' with a 'Reset' button. To the right of this box, there is a '常见问题' (Common Questions) section with the first question: '1、为什么要设置密保问题?' (1. Why do I need to set a security question?).

Field	Value	Action
Country/Region	China's Mainland	Modify
ID Type/ID No.	Overseas Chinese ID Card / Passport (If ID Card is not available) [Empty Input Box]	Modify
Password	*****	Modify
Email (Bound)	[Empty Input Box]	Modify
Security Question	Security Questions have been set. You can use them to recover your password.	Fold

16 Now, when everything will be set, your profile will appear as 100% complete.

Now, please go to the RED highlighted area at middle left corner and click on the link:

The screenshot shows the CHSI Account Management interface. On the left, a sidebar menu has '学籍档案' (Academic Record) highlighted in red. The main area displays the 'Profile' section with a progress bar at 100%. Below the progress bar, there are several fields for account information, each with a 'Modify' link:

- Mobile (Bound): [Redacted] Account bound with China's Mainland mobile number can use "Images Proofreading" and "Student Status/Qualification Check"
- Name: [Redacted]
- Country/Region: China's Mainland
- ID Type/ID No.: Overseas Chinese ID Card / Passport (if ID Card is not available) [Redacted]
- Password: *****
- Email (Bound): [Redacted]

17 The link will open as follows:

The screenshot shows the CHSI Academic Record page. The '本人身份核验' (Personal Identity Verification) section is highlighted. It contains three methods for verification:

- 方式1: 使用学信网App通过人像比对进行真人核验 (Verification using the CHSI App via facial recognition). Note: 证件类型不支持 (Document type not supported).
- 方式2: 上传本人身份证相关照片申请真人核验 (Upload photo of your ID card to apply for real-person verification). Button: 去验证 (Go to verification).
- 方式3: 输入就读或毕业的学校名称 (Enter the name of the school you are studying at or graduated from). A dropdown menu is shown with '清华大学' (Tsinghua University) selected and highlighted in red. Other options include '清华大学' and '北京协和医学院(清华大学医学部)'.

Here, go to the 3rd option, and write / enter / copy / paste 清华大学 (Chinese characters for Tsinghua University). You'll see that upon entering these characters, two options will automatically start appearing below the text you just entered.

Click on the first option:

This screenshot is identical to the previous one, showing the '本人身份核验' (Personal Identity Verification) section. The first option, '方式1: 使用学信网App通过人像比对进行真人核验', is now highlighted with a red box, indicating it is the selected option.

18 When it'll get chosen / selected, a green button will appear. Click on it:

本人身份核验

为保障您的信息安全,请选择一种方式进行核验,核验通过后才查看本人的学籍学历学位信息。

方式1
使用学信网App通过人像比对进行真人核验
证件类型不支持。

方式2
上传本人身份证相关照片申请真人核验
去验证

方式3
输入就读或毕业的学校名称
清华大学
验证
